

Introduction to the IRS Form 990 Schedule H

As a not-for-profit hospital, we operate for one purpose: to further our healing ministry. We do this by:

- Reinvesting our profits back into the communities through various programs and services
- Making sure that care is available to everyone — regardless of his or her ability to pay.
- Using compassion as the cornerstone our work to improve the health of our communities. Patients and their families are always treated as people first — attending to the needs of the whole person — body, mind, and spirit.
- Providing a range of special benefits to the community, such as programs to manage care for persons with chronic diseases, health education and disease prevention initiatives, outreach for the elderly, and care for persons who are poor or uninsured.

The IRS grants us tax exemption as a “charitable, community-oriented organization.” Without this status, we could not continue to deliver the same level of community benefits that are so important and necessary.

The federal government recently ruled that health care entities like ours report their community benefit programs. This includes a wide array of activities and services that need to be categorized and explained – in detail – on the following IRS form called “990 Schedule H.” This document requires us to report information on:

- Charity care (financial assistance) and other community benefits
- Community building activities
- Medicare, bad debt and collection practices
- Management companies and joint ventures
- Facilities comprising the organization

The following terms and definitions will help you better understand each section of the report. Should you choose to not print the document, you can also hover your computer’s mouse over the terms for a brief definition.

PART I: Charity Care and Certain Other Community Benefit at Cost

1a Charity Care Policy: A Trinity Health Ministry Organization's designated procedure/methodology for classifying patients who cannot afford health care services due to inadequate resources and/or are uninsured or underinsured. Care is then provided without charge, or at amounts less than the established rates. Because Trinity Health does not pursue collection of amounts determined to qualify for charity care, they are not reported as net patient service revenue in the consolidated statements of operations and changes in net assets. The cost of charity care is calculated using a cost-to-charge ratio methodology.

3 Charity Care Eligibility: A patient's ability to meet Trinity Health-specified qualifications/criteria to receive financial assistance for medical care, based on the Ministry Organization's official Charity Care Policy.

3a Federal Poverty Guidelines (FPGs): Issued annually by the Department of Health and Human Services (HHS). FPGs are a simplification of the government's designated "federal poverty thresholds," which are highly statistical to calculate the number of Americans living in poverty each year. FPGs are more administrative, and help determine financial eligibility for certain federal programs. The poverty guidelines are sometimes loosely referred to as the "federal poverty level" (FPL), but that phrase is ambiguous and should be avoided, especially in situations (e.g., legislative or administrative) where precision is important.

4 Medically indigent: Persons whom the organization has determined are unable to pay some or all of their medical bills because the bills exceed a certain percentage of their family income and/or assets (e.g., due to catastrophic costs or conditions), even though they have income or assets that otherwise exceed the generally applicable eligibility requirements for free or discounted care under the organization's Charity Care Policy.

6a annual community benefit report: Published each fall within Trinity Health's Annual Report, this is a detailed account of all costs associated with dedicated staff, community health needs and/or asset assessments, as well as other costs associated with community benefit strategy and operations.

7a Charity care at cost: Free or discounted health care services provided to persons who meet the organization's criteria for financial assistance and are therefore deemed unable to pay for all or a portion of such services.

7b Unreimbursed Medicaid: When Medicaid, a state health care program for qualifying low-income residents, does not reimburse Trinity Health for the full cost of health care services provided to patients. Trinity Health then "absorbs" these costs at a financial loss.

7c Unreimbursed costs – Other means-tested government programs: Government programs for which eligibility for benefits or coverage is determined by the recipient's income or asset level. (e.g., The State Children's Health Insurance Program (SCHIP) is a means-tested government program.)

7e Community health improvement services and community benefit operations:

The activities to be reported on this line are two different categories of activities:

1. **Community health improvement services:** Activities and services for which no patient bill exists. These services are not expected to be financially self-supporting, although some may be supported by outside grants or funding. Some examples include free clinic services, programs directed at improving women's health, free or low cost prescription medications, and rural and urban outreach programs. The Ministry Organization actively collaborates with community groups and agencies to assist those in need in providing such services.
2. **Community Benefit Operations:** Costs associated with dedicated staff, community health needs and or assets assessments, and other costs associated with community benefit strategy and operations.

7f Health professions education: Programs that result in a degree, certificate, or training that is necessary to be licensed to practice as a health professional, as required by state law; or continuing education that is necessary to retain state license or certification by a board in the individual's health profession specialty.

7g Subsidized health services: Clinical services that are provided, despite a financial loss to the organization. The financial loss is measured after removing losses, measured by cost, associated with bad debt, charity care, Medicaid and other means-tested government programs. Despite the financial loss, the service is provided because:

1. It meets an identified community need, such as providing needed access to care for low-income individuals
2. If the service were no longer offered, access to health services would be impaired, or
3. Providing the service would become the responsibility of government or another tax-exempt organization.

7h Research: Any study or investigation of which the goal is to generate generalized knowledge made available to the public, such as knowledge about:

1. Underlying biological mechanisms of health and disease, natural processes or principles affecting health or illness;
2. Evaluation of safety and efficacy of interventions for disease such as clinical trials and studies of therapeutic protocols;
3. Laboratory based studies; epidemiology, health outcomes and effectiveness
4. Behavioral or sociological studies related to health, delivery of care, or prevention
5. Studies related to changes in the health care delivery system; and
6. Communication of findings and observations (including publication in a medical journal)

This category only includes research internally funded or research funded by a tax-exempt or government entity.

7i Cash and in-kind contributions to community groups: Cash contributions made to entities and community groups that share the organization's goals and mission. In-kind contributions include the cost of hours donated by staff to the community while on the organization's payroll, indirect cost of space donated to tax-exempt community groups (such as for meetings), and the financial value of donated food, equipment, and supplies.

PART II Community Building Activities Community Building activities include programs that address the root causes of health problems, such as poverty, homelessness and environmental problems. They support community assets by offering the expertise and resources of the health care organization.

1. **Physical improvements and housing** (Examples include: Community gardens; neighborhood improvement and revitalization projects; contributions to community-based assisted living and senior and low-income housing projects)
2. **Economic development** (Examples include: Assisting small business development in neighborhoods with vulnerable populations and creating new employment opportunities in areas with high rates of joblessness; participation in an economic/labor development council; chamber of commerce or Rotary Club)
3. **Community support** (Examples include: Childcare and mentoring programs for vulnerable populations or neighborhoods; neighborhood support groups; violence prevention programs; disaster readiness and public health emergency activities)
4. **Environmental improvements** (Examples include: Efforts to reduce community environmental hazards in the air; water and ground; residential improvements; such as helping to paint public housing apartments; or lead/radon programs; Neighborhood/community improvements; Adopt-a-Road)
5. **Leadership development and training for community members** (Examples include: Life or civic skills training programs; medical interpreter training for community members; community leadership development; cultural skills training)
6. **Coalition building** (Examples include: Hospital representation to community coalitions related to community health; Disease management programs; Collaborative partnerships with community groups to improve community health)
7. **Community health improvement advocacy** (Examples include: Local, state and national advocacy on behalf of such areas as: access to health care, public health, transportation, housing; Advocacy for social justice and human rights, including costs associated with advocating for social justice, environmental responsibility and human rights, such as fair treatment to workers)
8. **Workforce development** These programs address community-wide workforce issues — not the workforce needs of the health care organization. (Examples include: Physician/other health professional recruitment for areas identified by the government as medically underserved; Partnerships with community colleges and universities to address the health care workforce shortage; School-based programs on health care careers; Health care career mentoring projects)

Part VI: Supplemental Information

2 Needs assessment Trinity Health's designated evaluation process that involves the hospital assessing the health care needs of the community it serves by periodically

consolidating data and perspectives about the health and social needs of the community. The assessment data assists in the development of a plan for the entire community, with a linkage between the organization's mission and strategic plan, with special attention given to those most in need. A needs assessment is performed by the hospital in partnership with the community, or as a result of other agencies (e.g. public health or private such as United Way). If the hospital cannot perform the assessment, an outside vendor conducts it, then supplies the results.

3 Patient education of eligibility for assistance How the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's charity care policy.

4 Community information Describes the geographic area (e.g., urban, suburban, rural), the demographics of the community or communities (e.g., population, average income, percentages of community residents with incomes below the federal poverty guideline, percentage of the hospital's and community's patients who are uninsured or Medicaid recipients), the number of other hospitals serving the community or communities, and whether one or more federally-designated medically underserved areas or populations are present in the community.

5 Community building activities Includes programs that address the root causes of health problems, such as poverty, homelessness and environmental problems. They support community assets by offering the expertise and resources of the health care organization.

PART I, LINE 7: THE BEST AVAILABLE DATA WAS USED TO CALCULATE THE

COST AMOUNTS REPORTED IN ITEM 7. FOR CERTAIN CATEGORIES, PRIMARILY TOTAL

CHARITY CARE AND MEANS-TESTED GOVERNMENT PROGRAMS, SPECIFIC COST-TO-CHARGE

RATIOS WERE CALCULATED AND APPLIED TO THOSE CATEGORIES. THE COST-TO-CHARGE

RATIO WAS DERIVED FROM WORKSHEET 2, RATIO OF PATIENT CARE COST-TO-CHARGES.

IN OTHER CATEGORIES, THE BEST AVAILABLE DATA WAS DERIVED FROM THE

HOSPITAL'S COST ACCOUNTING SYSTEM.

PART I, LINE 7F: THE FOLLOWING NUMBER, \$46,436,127, REPRESENTS THE

AMOUNT OF BAD DEBT EXPENSE INCLUDED IN TOTAL FUNCTIONAL EXPENSES IN FORM

990, PART IX, LINE 25. PER IRS INSTRUCTIONS, THIS AMOUNT WAS EXCLUDED

FROM THE DENOMINATOR WHEN CALCULATING THE PERCENT OF TOTAL EXPENSE FOR

SCHEDULE H, PART I, LINE 7, COLUMN (F).

Part VI Supplemental Information

PART III, LINE 4: MOUNT CARMEL HEALTH IS INCLUDED IN THE CONSOLIDATED FINANCIAL STATEMENTS OF TRINITY HEALTH. THE FOLLOWING IS THE TEXT OF THE ALLOWANCE FOR DOUBTFUL ACCOUNTS FOOTNOTE FROM THOSE STATEMENTS:

"SUBSTANTIALLY ALL OF THE CORPORATION'S RECEIVABLES ARE RELATED TO PROVIDING HEALTHCARE SERVICES TO PATIENTS. ACCOUNTS RECEIVABLE ARE REDUCED BY AN ALLOWANCE FOR AMOUNTS THAT COULD BECOME UNCOLLECTIBLE IN THE FUTURE. THE CORPORATION'S ESTIMATE FOR ITS ALLOWANCE FOR DOUBTFUL ACCOUNTS IS BASED UPON MANAGEMENT'S ASSESSMENT OF HISTORICAL AND EXPECTED NET COLLECTIONS BY PAYOR."

COSTING METHODOLOGY FOR LINES 2 AND 3: AMOUNTS ARE CALCULATED ON LINE 2 USING A COST TO CHARGE RATIO METHODOLOGY.

ANY DISCOUNTS PROVIDED OR PAYMENTS MADE TO A PARTICULAR PATIENT ACCOUNT ARE APPLIED TO THAT PATIENT ACCOUNT PRIOR TO ANY BAD DEBT WRITE-OFF AND ARE THUS NOT INCLUDED IN BAD DEBT EXPENSE. AS A RESULT OF THE PAYMENT AND ADJUSTMENT ACTIVITY BEING POSTED TO BAD DEBT ACCOUNTS, WE ARE ABLE TO REPORT BAD DEBT EXPENSE NET OF THESE TRANSACTIONS.

THE ORGANIZATION IDENTIFIES MANY CHARITY PATIENTS AT THE TIME OF SERVICE AND INCLUDES A CHARITY APPLICATION WITH EVERY STATEMENT PER OHIO LAW. THE AMOUNT ON LINE 3 WAS OBTAINED BY A THIRD PARTY VENDOR, QUALINK, WHO REVIEWS ACCOUNTS ASSIGNED TO BAD DEBT WHO MAY QUALIFY FOR HCAP, OHIO'S PROGRAM FOR THE INDIGENT POPULATION, IN ORDER TO IDENTIFY ANY REMAINING DOLLARS THAT MAY QUALIFY FOR CHARITY.

PART III, LINE 8: SIMILAR TO CHA RECOMMENDATIONS, WHICH STATE THAT

SERVING MEDICARE PATIENTS IS NOT A DIFFERENTIATING FEATURE OF TAX-EXEMPT HEALTHCARE ORGANIZATIONS AND THAT THE EXISTING COMMUNITY BENEFIT FRAMEWORK ALLOWS COMMUNITY BENEFIT PROGRAMS THAT SERVE THE MEDICARE POPULATION TO BE COUNTED IN OTHER COMMUNITY BENEFIT CATEGORIES, MOUNT CARMEL HEALTH DOES NOT BELIEVE ANY MEDICARE SHORTFALL SHOULD BE TREATED AS COMMUNITY BENEFIT.

PART III, LINE 8: COSTING METHODOLOGY FOR LINE 6 - MEDICARE COSTS WERE OBTAINED FROM THE FILED MEDICARE COST REPORT. THE COSTS ARE BASED ON MEDICARE ALLOWABLE COSTS AS REPORTED ON WORKSHEET B, COLUMN 27, WHICH EXCLUDE DIRECT MEDICAL EDUCATION COSTS. INPATIENT MEDICARE COSTS ARE CALCULATED BASED ON A COMBINATION OF ALLOWABLE COST PER DAY TIMES MEDICARE DAYS FOR ROUTINE SERVICES AND COST TO CHARGE RATIO TIMES MEDICARE CHARGES FOR ANCILLARY SERVICES. OUTPATIENT MEDICARE COSTS ARE CALCULATED BASED ON COST TO CHARGE RATIO TIMES MEDICARE CHARGES BY ANCILLARY DEPARTMENT.

PART III, LINE 9B: THE ORGANIZATION'S COLLECTION POLICY CONTAINS THE CRITERIA FOR FINANCIAL ASSISTANCE, AND CONTAINS THE FOLLOWING VERBIAGE FOR ARRANGEMENTS WITH OUTSIDE COLLECTION AGENCIES: THE AGREEMENT MUST DEFINE THE STANDARDS AND SCOPE OF PRACTICES TO BE USED BY OUTSIDE COLLECTION AGENTS ACTING ON BEHALF OF THE MINISTRY ORGANIZATION, ALL OF WHICH MUST BE IN COMPLIANCE WITH THIS POLICY.

Part VI Supplemental Information

THROUGH COMMUNITY NEEDS ASSESSMENTS EVERY THREE (3) YEARS. A COMMUNITY NEEDS ASSESSMENT IS A POINT-IN-TIME EFFORT TO MEASURE THE HEALTH AND WELL BEING OF THE COMMUNITY. IT SERVES AS THE BASIS FOR MOUNT CARMEL'S STRATEGIC AND SUBSEQUENT ACTION PLANNING TO DEVELOP HEALTH POLICY, ALLOCATE RESOURCES, IMPROVE OR EXPAND EXISTING SERVICES, IMPLEMENT NEW PROGRAMS AND COLLABORATE WITH OTHER COMMUNITY HEALTHCARE PROVIDERS. A COMMUNITY NEEDS ASSESSMENT ALSO SERVES AS A BENCHMARK FOR FUTURE ASSESSMENT OF RELATIVE PROGRESS TOWARD ESTABLISHED COMMUNITY HEALTH OBJECTIVES.

MOUNT CARMEL'S COMMUNITY HEALTH NEEDS ASSESSMENT PROVIDES THE OPPORTUNITY TO:

- GAIN INSIGHTS INTO THE NEEDS AND ASSETS OF THE COMMUNITIES SERVED
- IDENTIFY AND ADDRESS THE NEEDS OF VULNERABLE POPULATIONS WITHIN THE COMMUNITY
- ENHANCE HOSPITAL/COMMUNITY RELATIONSHIPS AND THE OPPORTUNITY FOR COLLABORATIVE COMMUNITY ACTION, INCLUDING INVOLVEMENT WITH COALITIONS, PARTNERSHIPS, BOARDS, COMMITTEES, COMMISSIONS, ADVISORY GROUPS AND PANELS
- PROVIDE THE INFORMATION REQUIRED FOR COMMUNITY OUTREACH PLANNING

MOUNT CARMEL'S COMMUNITY HEALTH NEEDS ASSESSMENT PROCESS INVOLVES THE GATHERING OF TWO TYPES OF DATA: QUANTITATIVE (DEMOGRAPHICS, HEALTH INDICATORS, ETC.) AND QUALITATIVE (PUBLIC SURVEYS, FORUMS, FOCUS GROUPS). WHILE MOUNT CARMEL CONDUCTS SOME OF ITS OWN ORIGINAL RESEARCH IN COMPLETING THE COMMUNITY NEEDS ASSESSMENT, IT ALSO RELIES UPON THE AVAILABILITY OF DATA COLLECTED BY OTHERS WHENEVER POSSIBLE TO AVOID UNNECESSARY DUPLICATION. THE DATA HELP SUPPORT SHORT-TERM AND LONG-TERM DECISIONS ABOUT ALLOCATION OF COMMUNITY HUMAN AND CAPITAL RESOURCES.

Part VI Supplemental Information

MOUNT CARMEL'S MOST RECENT COMMUNITY NEEDS ASSESSMENT WAS RELEASED IN JANUARY 2007. BESIDES ITS BOARD OF TRUSTEES, MOUNT CARMEL SHARES THE FINDINGS OF ITS COMMUNITY NEEDS ASSESSMENTS WITH OTHER NON-PROFIT ORGANIZATIONS AND GOVERNMENT OFFICIALS/ENTITIES AND SEEKS TO FORM COLLABORATIVE PARTNERSHIPS WITH THEM WHEN POSSIBLE TO AVOID UNNECESSARY DUPLICATION OF EFFORTS IN ADDRESSING IDENTIFIED COMMUNITY HEALTH NEEDS.

MOUNT CARMEL IS IN THE PROCESS OF CONDUCTING A NEW SURVEY WHICH WILL BE COMPLETED BY JANUARY 30, 2012.
